FloorCare Specialists utilizes state of the art carpet care products that are designed and formulated by industry leading scientists. Our company's owners and technicians all have a great depth of carpet industry experience, working at commercial carpet dealerships, carpet manufacturers and the leading fiber producer. We know carpet.

We feature state of the art hot water extraction and low moisture, polymer based carpet care technologies. We utilize carpet products that are Green Seal Certified. Our protocols are in compliance with the US Green Building Council's requirements for LEED EB certification.

Our growing list of customers include the local headquarters of many "Fortune 500" companies, school systems, healthcare networks, national retail chains and large entertainment venues.
